VOL. 9

FALL-WINTER — 1955-1956

NO. 2

UNUSUAL CATTLEYAS

Add Spice To Your Collection

Not all Cattleyas are large, frilly and either white or lavender - purple. There are many unusual and very charmingly exotic types of Cattleyas in a striking range of colors, sizes and shapes. Most of these are very rare and seldom seen in cultivation — Because they are not as big as the more common commercial cattleyas they have been greatly neglected by most growers. Here at the Orchid Jungle we have been interested in them for many years but have not had them in sufficient quantities to advertise until just recently. Our founder, Lee A. Fennell made his first hybrid of this type in 1910 — it was Bc. Daffodil — a darling little butter yellow flower. Ever since, it has been so popular that we are always almost completely sold out. During the rest of his life he continued to make other crosses of these unusual sizes and colors and we have also bought and imported many other types through the years. We have made special pets of these charming and so different cattleyas — hating to sell them as if they were members of the family. We have been propagating them and now have quite a stock — a few each of many different kinds and for the first time we are offering them for sale in a real variety of many different sizes, shapes and colors. Look below and see if these unusual orchids won't add real spice and interest to your collection. They are some of our very special favorites and we feel sure they will be yours too.

(Continued on Page 2)

ORCHID JUNGLE

Visitors come from all over the world to see the ORCHID JUNGLE, only 25 miles south of Miami. Follow signs on U.S. No. 1. Charming guides explain orchid culture and answer questions. Orchids from every part of the world flower in abundance on our great oak trees. You wander through the jungle path at your leisure, photographing and reveling in peace and beauty. Admission is \$1.00 (including taxes) and every lady visitor receives an orchid.

Do YOU grow ORCHIDS for FOLIAGE or FLOWERS?

Most orchids bloom only once a year — because of this many growers have only foliage to look at most of the time. Some new hybrids, however will bloom more than once a year. Here at the Orchid Jungle we have found that by feeding our plants regularly all year long we now have quite a few crosses that bloom several times a year. These plants are a real COLLECTOR'S DREAM because they bloom so much more than most orchids — They are truly —

ORCHIDS that give you the MOST FLOWERS per DOLLAR

(Continued on Page 8)

WHEN THE FROST Is On The Pumpkin

"When the frost is on the pumpkin and the fodder's in the shock" — when "the melancholy days are come, the saddest of the year" — (I'm a November child myself, so I love the fall and take that quotation with a grain of salt, but it's a cinch the days are often gloomy). When its cozy to stay indoors but you look out at a bleak landscape — often through a nasty drizzle and its pretty gray and brown outside — What brilliant orchids will bloom in *your* windows? Buck up your spirits? . . . Amaze passers-by? . . . Want some plants — now in sheath — fall-winter bloomers?? Try these:

FALL BLOOMING CATTLEYAS

BLC. CLARELEN

Very large, very strong, heavy plants—true jumboes—fine, large, dark, heavy flowers.

1 lead blooming size . . . \$25.00

"GROW ALONG" PLAN

This plan is the same as a "Lay-Away Plan," except the orchid plants are growing and increasing in value as you make your payments.

Order your plants and send \$1.00 or more to hold them.

Orders up to and including \$12.50 may be paid for at \$1.00 per week. (or more if you prefer).

Orders from \$12.50 through \$25.00 may be paid for at \$2.00 per week. (or more if you prefer).

Orders of \$25.00 and up may be paid for at \$5.00 per week. (or more if you prefer).

Your orchid plants are marked with your name and put aside. They will be "Growing Along." When the plants are paid for, shipment will be made to you.

CATTLEYA SPECIES

C. GASKELLIANA

Compact, heavy grower, good bloomer, lavender, well-held, heavy, May-June.

1 lead	\$ 8.50
2 lead	\$12.50
3 lead	\$17.50

C. GIGAS var. WARSCWICZII

Large, dark showy flowers, prettiest of species, needs lots of sun, not recommended north of Mason-Dixon line, strong grower, heavy bloomer, May-June.

1 lead	\$ 8.50
2 lead	\$12.50
3 lead	\$17.50

C. LODDEGESII

A rare and very cute cattleya, flowers 3-4", large plants carry up to 10-12 flowers per stem. Blooms lavender varying from light pinkish lavender to dark rosy lavender, very heavy texture, long lasting, blooming size. Season spring and summer.

A large, fine white with dark lip, 3" pot 2-4" tall\$2.50 ea.

striped gold. Strong grower, very 3" pot 5-7" tall\$5.00 ea.

heavy bloomer. Blooms Spring.

C. BOB BETTS x C. CLARIS (C. ST. PETERSBURG)

This should be one of the finest pure whites ever produced. Bob Betts is a round, overlapping sepals and petals, very heavy pure white. The St. Petersburg is our largest and best, blooms 3-5 times a year. The seedlings are very strong, heavy plants, the strongest in the seedling house.

C. WOLTERIANA

This is a collector's item. The last time we had these they sold out immediately. We only have a few now, first come, first served. All shades from peach thru apricot, yellow and gold to flamingo, 3-4" flower, carries 8-14 on a stem. A very strong grower, blooms February and March.

LC. CANHAMIANA ALBA x C. PRISCILLA ALBA

Large white with deep purple lip, 3" pot 6-8" tall\$ 8.50 ea.

strong grower — heavy bloomer — 3" pot soon-to-bloom\$12.50 ea.

ADVICE

We also conduct an information service for our customers and we are always glad to answer any questions you may have at any time — please don't hesitate to write.

Mrs. Burwin Bean and Daughter of Nebraska showing their Cattleya Trianaei with 21 flowers, blooming for the third time since they bought it from us.

FENNELL'S ORCHID SEED LIST

#412 LC. SPRINGOLD x C. EMPRESS FREDERICK A large, round, full, luxurious, heavy textured flower, dark lav. sepals and petals, rich, dark purple lip, generally 2 to 5 blossoms per spike, enormous, gorgeous blooms well presented, crossed with an exceedingly dark, very reddish purple, well held, 2-3 per stem, striking blooms. Both parents bloom twice yearly.

#413 C. ST. PETERSBURG x C. SNOWSONG A heavy textured, excellent shaped, large, gorgeous pure white (sometimes as many as 7 flowers per spike), blooms several times yearly with us, fragrant; crossed with a 4" very heavy textured pure, snow white bloom, no color in throat, 4-8 flowers per stem, bifoliate. Should make a very heavy textured, free flowering, winter-spring and various bloomer.

#414 VANDA MERRILLII selfed Full, flat, round flower, Chinese red marked with yellow, wonderful fragrance.

#415 BLC. TRUDY FENNELL x C. BOWRINGIANA A large, round, perfect shaped, heavy bloom, dark orchid s & p with deep purple, large lip crossed with a selected variety, full round seedling with deep orchid s & p and dark purple lip, extremely floriferous, strong plants bearing 20 or more to the stem.

Prices of any of the foregoing per packet sufficient for ten — 500 cc flasks — \$15.00, Half packet — \$8.00, Quarter Packet — \$5.00

(continued from Page 1)

ORCHIDS that give you the Most Flowers per DOLLAR.
